

significant bond of Polish culture, heritage and history in Cleveland and across the country. The group serves as a unifying force for both Polish Americans and Polish citizens living in America. Taking a positive stand on issues concerning the people of Poland, the group strives to attain a free market economy within the framework of a democratic society.

The goal of the Polish American Congress is to make Americans of Polish heritage more successful U.S. citizens by encouraging them to assume the responsibilities of citizenship. In addition, the group supports fraternal, professional, religious, and civic associations dedicated to the improvement of the status of all Americans of Polish heritage. The Polish American Congress has played a crucial role in the Polish community, and in its many years of support and service has been an invaluable contribution to the city of Cleveland and beyond.

Mr. Speaker and colleagues, please join me in honor and celebration of the leaders and members of the Polish American Congress, as they celebrate Polish Constitution Day and as they continue to promote and protect the heritage, history and culture of their beloved Polish homeland—providing awareness and connection to every new generation born in America, and enriching the diverse fabric of our entire Cleveland community.

DEPARTMENT OF THE INTERIOR,  
ENVIRONMENT, AND RELATED  
AGENCIES APPROPRIATIONS  
ACT, 2007

SPEECH OF

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 18, 2006*

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 5386) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2007, and for other purposes:

Ms. LEE. Mr. Chairman, I rise in strong opposition to Interior appropriations bill and in support of the Putnam/Capps amendment that will be considered on the floor today.

For 25 years we have maintained a bipartisan agreement to ban any new drilling off our shores because we believed it was more important to safeguard the health and beauty of our coastal environment for future generations to enjoy.

But now the Interior appropriations bill threatens to upset this agreement and open our coastal areas to drilling despite overwhelming opposition from the American people.

We should not be trading away our pristine coastal habitats to fatten the coffers of the administration's cronies in the oil and gas industry.

The fact of the matter is that new offshore drilling will do nothing in the short term to reduce the high gas prices that consumers are facing at pump, and will do nothing in the long term to wean us away from our addiction to oil.

The best way to fight high gas prices now is to hold oil companies accountable for

gouging consumers by instituting a windfall profits tax.

At the same time, we need to make immediate investments to expand energy efficiency by raising vehicle fuel economy standards, increasing the use of renewable fuels, and by adopting a foreign policy that does not hold our constituents hostage to the latest political crisis in the Middle East.

Today our constituents are paying the price for this administration's deliberate decision to prioritize the profit margins of the oil and gas industry over a comprehensive and sustainable long term energy policy.

Vote against another giveaway to the energy industry. Support the Putnam/Capps amendment and save our coastal environments.

HONORING W. JAMES FARRELL

**HON. RAHM EMANUEL**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 22, 2006*

Mr. EMANUEL. Mr. Speaker, I rise today I order to recognize the long and distinguished career of Jim Farrell. Jim retired this month as chairman of Illinois Tool Works, Inc., ITW, after a 41-year career with the company, and has spent a lifetime making a positive impact on the Chicago-area community.

After graduating from the University of Detroit with a degree in electrical engineering, Jim joined ITW in 1965. He originally intended to work there for the few months he had before reporting for military service, but he would ultimately return after 2 years in the Army. Rising steadily through the ranks, Jim served as ITW's chief executive officer from 1995 and chairman from 1996. Based in Glenview, Illinois, the company now operates in 45 countries and employs almost 50,000 people.

As CEO and chairman of a Fortune 200 company, Jim was known for an unusual but highly successful approach. At ITW he oversaw the purchase of more than 200 companies. He resisted the prevailing wisdom to consolidate operations and instead gave the 600 division managers a high degree of autonomy. This allowed Jim to cultivate an environment that remains highly conducive to entrepreneurship and allows managers to stay closely connected to employees and customers.

Jim has always found time and energy to give to the community. For more than a decade he has chaired and worked with the Chicago branch of Junior Achievement, a worldwide organization dedicated to educating young people about business, economics, and free enterprise. In addition to serving on numerous other business and civic boards, Jim also instituted a generous matching policy under which ITW matches \$3 for each \$1 donated to charity by an employee.

Mr. Speaker, I congratulate Jim for his many successes, I thank him for his role within the business community of Illinois and for his dedication to civic duty, and I wish him and his family the best of luck in all future endeavors.

ACT, 2007

SPEECH OF

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 18, 2006*

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 5386) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2007, and for other purposes:

Mr. KUCINICH. Mr. Chairman, I submitted the attached statement, in support of the Putnam-Capps Amendment to ban drilling for natural gas on the Outer Continental Shelf on May 18, 2006.

FLOOR STATEMENT IN SUPPORT OF THE OCS DRILLING BAN AMENDMENT TO THE FY2007 INTERIOR APPROPRIATIONS BILL, H.R. 5386

I rise in strong support of this amendment to preserve the popular and longstanding ban on drilling off our coasts. First, let's be clear that there is no such thing as drilling for gas only. Even the Administration and the energy industry have dismissed the idea as unworkable. So this is nothing more than a fig leaf.

But it's a fig leaf that will bring toxic contamination to our marine environment merely three miles off our coasts. And it could open the door to drilling in the Great Lakes, which is also opposed by Great Lakes residents.

We cannot forget that new drilling will have no effect on energy prices for years. In contrast, we have technologies to reduce our addiction to oil and natural gas that are ready to go today. The problem is that we're subsidizing unsustainable energy production like drilling for natural gas and oil while failing to fund real renewable solutions. I urge my colleagues to vote for the amendment.

TRIBUTE TO COMMEMORATE JEWISH AMERICAN HISTORY MONTH

**HON. MICHAEL M. HONDA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 22, 2006*

Mr. HONDA. Mr. Speaker, I rise today to commemorate Jewish American History Month and the contributions made to our country by Jewish Americans. With a culture that strongly values education and community, they have enriched our culture and contributed to the economic and cultural vitality of our Nation. My community in Silicon Valley wouldn't be what it is today without the contributions of Jewish Americans.

Jewish immigrants came to our country, hoping to fulfill their dreams by participating in the American promise of socioeconomic mobility and cultural tolerance. The stories of their successes in our country are greatly inspiring.

Andy Grove, for instance, fled his home in Hungary during the Hungarian Revolution with his family under the cover of night, and immigrated to the United States. From these humble beginnings he eventually became the Chairman and CEO of one of the greatest
